

Curriculum vitae

(Dr. László Nagy)

Personal information

Place and date of birth: Kiskunfélegyháza, Hungary, 1957

Marital status: married to Dr. Erzsebet Antal, children: Tamás, Csaba, Krisztina

Office address: Szeged University, Department of Medical Physics and Informatics, H-6701

Szeged, P.O.Box. 655. Hungary, Tel.: (36)-(62)-544-121

E-mail: lnagy@sol.cc.u-szeged.hu

Position: Associate professor

Education and degrees

1. *M. Sc. in biology and chemistry* at József Attila University, Szeged, Hungary, 1982. *Title of thesis:* The photosynthetic properties of *Chlorella pyrenoidosa* (supervisor: Dr. Tamás Herczeg)
2. *Dr. Univ. in biophysics* at József Attila University, Szeged, Hungary, 1984. *Title of thesis:* The physical-chemical properties of photosynthetic membranes (supervisor: Dr. Endre Lehoczki)
3. *Ph.D. in biological science* at the Hungarian Academy of Sciences, 1996. *Title of thesis:* Structure and functions in photosynthetic reaction centers of prokaryotic organisms (supervisor: Dr. Péter Maróti)

Positions

1. *high school teacher, 1981-1987:* Mikes Kelemen High School, Battonya, Hungary.
2. *assistant professor, 1987-1990:* József Attila University, Department of Biophysics.
3. *associate professor, University of Szeged (until 2000: József Attila University), Department of Medical Physics and Informatics (until 2004: Department of Biophysics).*

Special training, lab visits

1. Biological Research Center, Department of Plant Physiology, Szeged, Hungary, (sup. Dr. Magdolna Droppa), UNDP International Training Course on Selected Topics on Modern Molecular Biology
-1990-91, *research fellow*
2. Imperial College of Science, Technology and Medicine, Department of Biochemistry, AFRC Photosynthesis Research Group, London, UK (head: Prof. James Barber)
- 1991-1992, *Hungarian Academy of Sciences - Royal Society - Soros Foundation fellowship*,
- 11/04/1994-15/04/1994, *visitor scientist*
3. Weizmann Institute of Science, Department of Biological Chemistry Rehovot, Israel (Professor Shmuel Malkin's group)
- 05/1998-06/1998, *senior research fellow*
- 02/2000-03/2000, *senior research fellow*
4. CNR Centro Studi Chimico-Fisico Interazione Luce Materia C/O Dip. Chimica, Università di Bari (Dr. Massimo Trotta's group)
- 07/01/1999-11/01/1999, *NATO-CNR joint fellowship*
- 06/09/2001-16/09/2001, *TÉT Italian-Hungarian bilateral travel grant*
- 21/05/2002-30/05/2002, *TÉT Italian-Hungarian bilateral travel grant*
- 04/09/2004-03/10/2004, *MTA/CNR research cooperation*
- 17/05/2005-30/05/2005, *MTA/CNR research cooperation*
- 01/10/2007-14/10/2007, *MTA/CNR research cooperation*
- 23/06/2009-20/07/2009, *MTA/CNR research cooperation*

-07/07/2010-05/08/2010, MTA/CNR research cooperation

5. Kyoto University, Department of Chemistry, Japan (Prof. Masahide Terazima's group)
 - 01/08/2002-30/9/2002, Japan Society for Promotion of Science Fellowship
 - 14/07/2003-22/07/2003, Kyoto University travel grant
 - 18/02/2008-18/04/2008, Japan Society for Promotion of Science Fellowship
 - 18/08/2008-18/09/2008, NKTH, TÉT bilateral project
 - 17/04/2009-20/05/2009, NKTH, TÉT bilateral project
6. Concordia University, Department of Physics, Montreal, Canada (Prof. Laszlo Kalman's group)
 - 16/04/2007-16/07/2007, visitor scientist
7. University of Salento, Department of Material Sciences, (Prof. Livia Giotta's group)
 - 01/10/2007-14/10/2007, ERASMUS Fellowship
 - 23/06/2009- 01/07/2009, ERASMUS Fellowship
 - 07/07/2010-14/07/2010, ERASMUS Fellowship

Teaching experience:

Regular courses

- *high school teaching*: biology and chemistry
- *biophysical practicals* for medical students and biology students
- "*Introduction to biophysics*" lectures for biology students
- "*Biophysics*" lectures for biology students

Special courses:

- "*Biophysics of photosynthesis*" for undergraduate and PhD students
- "*Experimental methods in photosynthesis research*" for undergraduate and PhD students
- "*Bacterial photosynthesis*" for Ph.D. students
- "*Time resolved absorption change measurements*" for Ph.D. students
- *Environmental physics*

International teaching

- "*Functions of quinones and inhibitors in reaction centers of photosynthetic bacteria*" Practical demonstration at "Spectroscopic methods in Energy Converting Membranes", International Summer School, July 1-August 14, 1993, Szeged, Hungary
- "*Flash kinetic study of electron transfer in bacterial reaction centers embedded in chromatophores, phospholipid vesicles and micells*" Practical demonstration at "Structure and dynamics of photosynthetic membranes" International Summer School, August 23-26, - 1998, Szeged, Hungary
- ERASMUS lectures at University of Salento (2007, 2009)
- diploma works for master's degree in the frame of ERASMUS (2 students from University of Salento)

Number of students for diploma works: 30 and for PhD: 2.

Research area:

Research fields: charge separation and stabilization in photosynthetic reaction centers, photosynthetic herbicides, membrane lipids and the photosynthetic electron transport, photothermal processes (photoacoustics, transient grating), bio-nano composite materials, carbon nanotubes

Technics used: biochemical preparative methods for protein purification, steady state and time resolved (in ms and μ s time scale) absorption spectroscopy, fluorescence spectroscopy (steady state, fl. polarisation, fluorescence induction, delayed luminescence), flash induced oxygen evolution measurements, photoacoustics, transient grating

Publications:

Original papers in referred journals:22
Conference proceedings: 7
Conference abstracts in referred journals: 9
Total: 38

Hungarian (appeared): 23

Books and handouts
editorship: 2
book chapters: 10

conferences: 63
lectures abroad: 13
total references: 229 (independent: 149)
Impact factors: 67.848

Memberships in societies: Hungarian Biophysical Society,

Knowledge of languages: English: fluent speaking, writing and reading; Russian, German, Italian
poor speaking and reading

Szeged, 10/08/2010

PUBLICATIONS

(Dr. László Nagy)

I. In international referred journals

1. Original papers

1. Nagy, L., Puskás, Á., Tandori, J., Droppa, M. és Horváth, G. (1991) Effect of DCMU on photosynthetic purple bacteria, *Photosynthetica*, 25, 167-171. IF: 0.482
Ref.: (total: 7, independent: 0)
2. Tandori, J., Nagy, L. and Maróti, P. (1991) Semiquinone oscillation as a probe of quinone/herbicide binding in bacterial reaction centers, *Photosynthetica*, 25, 159-166. IF: 0.482
Ref.: (total: 8, independent: 1)
3. Zhang, Z.-H., Mayes, S.R., Vass, I., Nagy, L. and Barber, J. (1993) Characterisation of the *psbK* locus of *Synechocystis* sp. PCC 6803 in terms of Photosystem II function, *Photos. Res.*, 38, 369-379, IF: 2.664
Ref.: (total: 10, independent: 7)
4. Mayes, S.R., Dubbs, J.M., Vass, I., Hideg, E., Nagy, L., and Barber, J. (1993) Further Characterisation of the *psbH* Locus of *Synechocystis* sp. PCC 6803: Inactivation of *psbH* Impairs QA to QB Electron Transport in Photosystem 2, *Biochemistry*, 32, 1454-1465, IF: 5.109
Ref.: (total: 68, independent: 60)
5. Nagy, L., Bálint, E., Barber, J., Ringler, A., Cook, K.M. and Maróti, P. (1995) Photoinhibition and law of reciprocity in photosynthesis, *J. Plant Physiol.*, 145, 410-415, IF: 1.088
Ref.: (total: 23, independent: 23)
6. Tandori, J., Nagy, L., Puskás, Á., Droppa, M., Horváth, G. and Maróti, P. (1995) The IleL229->Met mutation impairs the quinone binding to the QB-pocket in reaction centres of *Rhodobacter sphaeroides*, *Photos. Res.*, 45, 135-146, IF: 2.964
Ref.: (total: 14, independent: 3)
7. Nagy L., Fodor, E., Tandori, J., Rinyu, L. and Farkas, T. (1999) Lipids affect the charge stabilization in wild type and mutant reaction centers of *Rhodobacter sphaeroides*, *Austr. J. of Plant Physiol.*, 25, 465-473, IF: 1.143
Ref.: (total: 9, independent: 4)
8. Brumfeld, V., Nagy L., Kiss, V. and Malkin, S. (1999) Wide-frequency hydrophone detection of laser induced photoacoustic signal in photosynthesis, *Photochem. Photobiol.*, 70, 607-615, IF: 2.768
Ref.: (total: 5, independent: 2)
9. Tandori, J., Hideg, É., Nagy, L., Maróti, P. and Vass, I. (2001) Photoinhibition of carotenoidless reaction centers from *Rhodobacter sphaeroides* by visible light. Effects on protein structure and electron transport, *Photos. Res.*, 70, 175-184, IF: 1.739
Ref.: (total: 13, independent: 11)
10. Nagy, L., Kiss, V., Brumfeld, V. and Malkin, S. (2001) Thermal and structural changes of photosynthetic reaction centers characterized by photoacoustic detection with a broad frequency band hydrophone, *Photochem. Photobiol.*, 74, 81-87, IF: 2.146
Ref.: (total: 8, independent: 5)
11. Rinyu, L, Nagy, L. and Körtvélyesi T. (2001) The role of the electronic structure of quinones in the charge stabilization in photosynthetic reaction centers, *J. Mol. Struct.-Theochem*, 571, 163-170, IF: 0.919
Ref.: (total: 3, independent: 3)
12. Halmschlager, A, J. Tandori, M. Trotta, L. Rinyu, I. Pfeiffer and L. Nagy (2002) A mathematical model for the quinone-herbicide competition in the reaction centers of *Rhodobacter sphaeroides*, *Functional Plant Biology*, 29, 1-7, IF: 1.552
Ref.: (total: 3, independent: 1)

13. Trotta, M., Milano, F., Nagy, L., Agostiano, A. (2002) Response of membrane protein to the environment: the case of photosynthetic Reaction Centre., *Materials Science and Engineering: C*, 22, 263-267, IF: 0.185
Ref.: (total: 11, independent: 4)
14. Agostiano, A., Mavelli, F., Milano, F., L. Giotta, L., Trotta, M., Nagy, L. and Maroti, P. (2004) pH-sensitive fluorescent dye as probe for proton uptake in photosynthetic reaction centers, *Bioelectrochemistry*, 63, 125-128, IF: 1.558
Ref.: (total: 5, independent: 3)
15. Nagy, L., Milano, F., Dorogi, M., Trotta, M., Laczkó, G., Szebényi, K., Váró, Gy., Agostiano, A. and Maróti, P. (2004) Protein/lipid interaction in bacterial photosynthetic reaction center: The role of phosphatidylcholine and phosphatidylglycerol in charge stabilization, *Biochemistry*, 43, 12913-12923, IF: 4.221
Ref.: (total: 19, independent: 12)
16. Dorogi, M., Milano, F., Szebényi, K., Maróti, P., Váró, Gy., Giotta, L., Agostiano, A., Trotta, M. and Nagy, L., (2005) Reaction centers in lipids, *Acta Biologica Szegediensis*, 49, 195-197. IF: 0.291
17. Márta Dorogi, Zoltán Bálint, Csilla Mikó, Bertrand Vilenó, Mirko Milas, Klára Hernádi, László Forró, György Váró and László Nagy (2006) Stabilization effect of single walled carbon nanotubes on the functioning of photosynthetic reaction centers, *J. Phys. Chem. B.*, 110, 21473-21479, IF:4.033
Ref.: (total: 11, independent: 10)
18. Milano, F., Dorogi, M., Szebényi, K., Nagy, L., Maróti, P., Váró, Gy., Giotta, L., Agostiano, A. and Trotta, M. (2007) Enthalpy/entropy driven activation of the first interquinone electron transfer in bacterial photosynthetic reaction centers embedded in vesicles of physiologically important phospholipids, *Bioelectrochemistry*, 70, 18-22, IF: 1.052
Ref.: (total: 2, independent: 1)
19. Milano, F.; Gerencsér, L.; Agostiano, A.; Nagy, L.; Trotta, M.; Maroti, P. (2007) Mechanism of Quinol Oxidation by Ferricenium Produced by Light Excitation in Reaction Centers of Photosynthetic Bacteria, *J. Phys. Chem. B.*, 111 (16): 4261-4270, IF:4.033
Ref.: (total: 1, independent: 0)

III. Invited lectures

1. Imperial College of Sciences, Technology and Medicine, AFRC Photosynthesis Research Group, London, UK
 - 1991: Fluorescence properties of Cyanobacteria
 - 1992: Electron transport characteristics of photosynthetic bacteria
2. CNR Centro Studi Chimico Fisico Interazione Luce Materia C/O Dip. Chimica, Bari, Italy
 - 1999: Effects on charge stabilization on photosynthetic reaction centers
 - 2002: Photoacoustic spectroscopy in photosynthesis research
3. Università Degli Studi Di Bari, Istituto Policedra di Biochimica Medica e Chimica Medica, Bari, Italy
 - 1999: From photons to protons in bacterial reaction centers
4. Kyoto University, Department of Chemistry, Japan
 - 2002: Thermal and structural changes in photosynthetic reaction centers
 - 2003: From photons to protons in photosynthetic energy conversion
 - 2008: Photosynthetic energy conversion – from intraprotein events to proton motive force
 - 2008: Transient grating does not prove large quinone displacement in photosynthetic reaction centers
 - 2009: Spectrally silent light induced conformation change in photosynthetic reaction centers
5. University of Salento, Department of Material Sciences, Lecce
 - 2007: Thermal and structural changes in photosynthetic reaction centers
 - 2007: From photons to protons to in photosynthetic energy conversion
 - 2009: Bio-nanocomposite materials: special attention to photosynthetic reaction centers
6. Semmelweis University, Institute of Biophysics and Radiation Biology, Budapest, Hungary
 - 2009: Photosynthetic energy conversion – from basic research to practical applications (Hungarian)
