

The 3<sup>rd</sup> Joint Meeting  
of the European Society for Microcirculation (ESM)  
and the European Vascular Biology Organization (EVBO)  
*April 15-18, 2019, Maastricht, The Netherlands*  
<http://esm-evbo2019.org/>

## Call for symposium proposal

Dear ESM and EVBO Members, national representatives, and colleagues,

We invite you to send symposia proposals for the 2019 joint ESM-EVBO meeting in Maastricht.

The Joint ESM-EVBO Meeting is an opportunity to advance research and education in the many areas of microcirculation and vascular biology, to emphasize the translational aspect of the ESM and EVBO, and to favor scientific interactions between researchers who work in microcirculation from basic sciences and clinical point of view. Symposia that will highlight this aspect are welcome.

Topics already addressed by the organizing committee, include: Microvascular dysfunction and organ damage; Angiogenesis/regeneration; EC adhesion; Vascular ageing/senescence; Vascular cell heterogeneity, plasticity and clonality; Oxidative stress and inflammation; Microcirculation in clinical cardiometabolic diseases; Vascular Pathophysiology, diagnostics, and treatment; (Patho)biology of resistance arteries, Emerging technologies; Vascular drug targeting.

We welcome additional symposium ideas that are preferably sponsored. The symposium proposals should contain the names, titles, address and E-mails of the two chairs and of 2-4 proposed speakers (15+5minutes), and a brief summary of the contents of the symposium (maximum 15 lines). Each symposium should be planned for 90 min, and allocate two talks (8+2min) for young fellows selected by the Organizing Committee from the abstracts.

The Scientific Committee, including ESM and EVBO representatives, will rank the submitted proposals and make a final selection.

Proposals should be sent to [info@esm-evbo2019.org](mailto:info@esm-evbo2019.org) using the form on the next page. The deadline for submitting a symposium proposal: **March 23<sup>rd</sup>, 2018.**

Sincerely yours, on behalf of the Dutch organizers

Boy Houben  
President of ESM

Judith Sluimer  
EVBO council
